

## Cisco Certified Network Associate

Cisco Certified Network Associate (CCNA®) validates the ability to install, configure, operate, and troubleshoot medium-size route and switched networks

As Enterprises migrate toward controller based architectures, the role and skills required of a core network engineer are evolving and more vital than ever. To prepare for this network transition, the CCNA Routing and Switching certification will not only prepare you with the knowledge of foundational technologies, but ensure you stay relevant with skill sets needed for the adoption of next generation technologies.

### CCNA Certification Exams

**Exam Codes: 200-125 CCNA or (100-105 ICND1 & 200-105 ICND2)** are the composite exams associated with the Cisco Certified Network Associate certification. Certification requires passing the **200-125 CCNA** exam or the **100-105 ICND1** and the **200-105 ICND2** exams. These exams test a candidate's knowledge and skills required to install, operate, and troubleshoot a small to medium size enterprise branch network. The topics include connecting to a WAN; implementing network security; network types; network media; routing and switching fundamentals; the TCP/IP and OSI models; IP addressing; WAN technologies; operating and configuring IOS devices; extending switched networks with VLANs; determining IP routes; managing IP traffic with access lists; establishing point-to-point connections; and establishing Frame Relay connections.

UCCI is proud to host Pearson VUE, Prometric, and Certiport Testing Centers.

If you wish to take an exam through the UCCI Pearson VUE, Prometric or Certiport testing centre, you must make all bookings and payments through VUE/Prometric/Certiport directly. UCCI does not offer services to arrange or schedule any testing for candidates. All arrangements and exam costs are solely the candidate's responsibility.
